

DOYLE TOTO-WICK

DESCRIPTION:

The **Doyle TOTO-WICK** is a specially designed ear wick, which expands to cover the conchal portion of the meatus. Made using our exclusive OTOCELL® sponge material, the TOTO-WICK is supplied compressed for ease of insertion. Fully expanded, it resembles a double-belled trumpet and can transverse the auditory canal from the meatus to a position lateral to the tympanic membrane. The TOTO-WICK is fenestrated for ease of medication application following expansion.

INDICATIONS FOR USE:

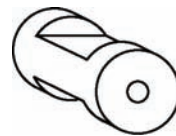

For use in the treatment of otitis externa.

SUPPLIED:

Sterile, 50 wicks per dispenser carton
(1 wick per pouch; 50 pouches per carton)

PRODUCT CODE:

TW-1320F DOYLE TOTO-WICK
